SAVINGS FOR  
YEARS TO COME

## EVERLAST D5I25

COVERAGE 250mm  
LENGTH 5.84m and 8m

Designed and manufactured in Australia, our products suit both traditional and contemporary house exteriors. Our cladding has been subjected to the rigorous physical test requirements of AS/NZS 4257.1, .6, .7, and .8 and has passed with ease.

Our products are formulated with careful attention to the UV conditions of the harsh Australian climate. The extrusion processes we have developed ensure that the colour and UV resistance are consistent all the way through each product – not just limited to the surface. These features, presented with clean glossy lines and embossed wood-grain surfaces, bring you products that deliver years of effective and stylish good looks with minimal upkeep.

We provide a factory warranty on all products, copy available on request. This warranty gives full (not pro rata) protection for ten years.
